FWBBC to Add Cross Country in 2011

NASHVILLE, TN—Free Will Baptist Bible College will be adding cross country as an intercollegiate varsity sport in the fall of 2011, according to Gary Turner, athletic director. Both men's and women's cross country will be offered. FWBBC currently has baseball, men's and women's basketball, men's and women's golf, and volleyball as intercollegiate sports.

“As we look to the future for athletics, this is the next logical step for us,” Mr. Turner said. “We are starting golf this fall, and cross country will fit right in with our plans to expand varsity athletic programs. We can add cross country without adding facilities. We hope to attract a number of Free Will Baptist student-athletes who already run cross country in high school and who wish to participate in varsity athletics at the college level.”

Recruiting for the fall of 2011 has already begun, and the search for a new coach is underway. High school athletes who are interested in running on a college cross country team are asked to contact FWBBC's athletic director, Gary Turner, at gturner@fwbbc.edu, or call him at 615-844-5276.
